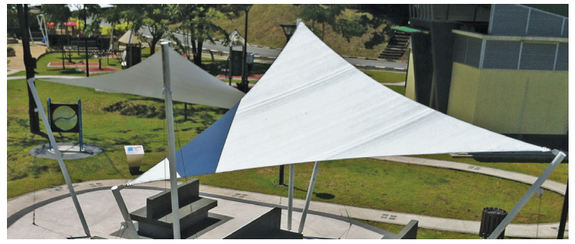
Landmark®

Coated Fabric

Landmark® is a class leading UV-Stabilised polypropylene scrim reinforced coated fabric designed for heavy duty industrial and agricultural applications.

It is the product of choice for tarpaulins and bulk grain covers, and many other uses in the agricultural sector and beyond. Landmark® has excellent 'lay flat' characteristics and superior resistance to flex cracking, offering superior strength and durability, and comes in several grades, weights and colours.

Landmark® is coated in Gale Pacific's Australian factory using our proprietary 3-layer, single pass coating process.



- Polypropylene coating applied using GALE's Advanced Coating Technology™ for class leading coating adhesion and superior resistance to flex cracking
- Inherently flexible coating does not require polymeric or liquid plasticiser, which can leach out in inferior products
- Dirt repellent PP coating, assisting in-field welding and seam strength
- Superior strength to weight ratio, easier to fabricate, install and handle
- Excellent UV durability, chemical and flex crack resistance, aiding tarpaulin lifetime
- Environmentally friendly, lead and phthalate free and 100% recyclable
- Heritage of over 15 years as Australia's Premium Grain Protection Fabric
- Developed and Coated in Australia
